

## Hair Reference Normal Parameters

	Frontal area	Occipital area	Temporal area
number of vellus hairs calculated in one field of vision (FOV) at 20-fold magnification	2 or less	2 or less	3 or less
total number of vellus hairs in four FOVs at 70-fold magnification	0-7	0-6	0-9
percentage of thin hairs (less than 0.03mm)	0-10%	0-10%	0-13%
percentage of medium-sized hairs (0.03mm to 0.05mm)	10-30%	12-42%	4-40%
percentage of thick hairs (above 0.05mm)	>60%	>50%	>50%
mean hair thickness (mm)	>0,053	>0,050	>0,050
hair units (%)	Single hair units <35% Double hair units 46-70 Triple hair units >10%	Single hair <30% Double hair units 45-73% Triple hair units >10%	Single hair <40% Double hair units 50-75% Triple hair units >10%
